## **Important Information for 2019-2020 School Year**

Your child will be entering the SECOND grade. We are very excited to watch your child grow! Please note documentation of the following exams are required by the State of Illinois. We are hopeful that the summer break will be a great time to have these exams done. You may turn in the paperwork for these at school registration so you will not have to worry about any deadlines for exams in the future!

### **Second Grade Requirements:**

#### **Dental Exam-**

Performed by a licensed dentist. Must be a current exam (exam done after May 2019). Your dentist will have the State required form.

#### **Vision Screening-**

This will be done at the school. You will be notified if your child does not pass the screenings.

We look forward to seeing your SECOND grader in August. We greatly appreciate your help with obtaining the required medical examinations.
